

Notary Services at Spelman College

The Office of Human Resources is pleased to offer the following directory as a resource to the campus community.

The individuals listed below are registered public notaries in the State of Georgia. They have agreed to have their names listed in this directory and serve as a resource for notary services on Spelman's campus. This service is available exclusively for current Spelman faculty, staff, and students. If you need to have a document notarized, whether business or personal, please use this directory to locate a public notary on campus who will notarize at no charge. Other interested parties requiring notary services should inquire about any fees with the specific notary selected. Please note that as a provider of notary services, each individual on this list is acting under their own commission by the State of Georgia and not as an agent of Spelman College. Any individual on this list reserves the right to refuse to notarize any document(s). Spelman College assumes no liability for notary public services provided by individuals on this resource list.
